Dear Candidate,

I hope you are doing well.

Thank you for your interest in the **AI/ML Engineer role** with us.

As part of the next step in our hiring process, please complete the technical assignment shared below. This task is designed to assess your expertise in **AI/ML systems, agent orchestration, browser automation, database design, and production-grade workflow reliability**.

Please review the complete assignment document here:

Assignment Link: https://docs.google.com/document/d/19GjexLj1BbiNRNocuFUfAiI_VP6XIr9bevNNHstpq-c/edit?tab=t.0

Submission Deadline: Kindly submit the completed assignment within **4–5 days from the receipt of this email**.

Please ensure your final submission includes:

- GitHub repository link
- Detailed README
- Demo screen recording
- Setup and execution instructions

If you need any clarification regarding the assignment, feel free to reply to this email.

We look forward to reviewing your submission.

Best regards,
Mallikarjun Hiregoud
HR Team

Project Overview

The project showcases an **AI-powered Job Application Agent** that automates the end-to-end job application process. It includes:

- LLM-based resume and cover letter generation
- Intelligent form understanding and auto-filling
- Agent-based workflow orchestration
- Structured logging and debugging for reliability
- Scalable and modular system design

A detailed **README** with setup instructions, execution steps, and architecture explanation has been included in the repository.

Thank you for your time and consideration. I look forward to your valuable feedback.

Warm regards,
Ashish Rastogi
AI Engineer
